

Changes can be made from:

- The menu bar, by selecting « GetFleet »
→ Lines management
- In the carousel « Choose a management act », select « Edit custom fields » →
 - Mass action (to be used for the same free field content)
 - By import (to be used when the content of free fields is different)

Through Mass action

- Filter from a file (ICCID) and click on « Apply a filter »
 - Choose a CSV or XSL file. Your lines will appear and the counter will be updated.
1. Configure the values of free fields (Optional)
 2. Click on « **Edit fields** », to save your free fields

2 CONFIGURE THE VALUES OF FREE FIELDS

Champ libre 1 [Optionnal field]

Champ libre 2 [Optionnal field]

Champ libre 3 [Optionnal field]

Champ libre 6 [Optionnal field]

Through Importing

- To update different values for the same field on different maps, the imported file must contain the different values as follows (empty cell = no change):

8933206020201129677	Value 1	Value 2	
8933209520091588822	Value 3		Value 4

1. Select the type of identifier from the drop-down menu
2. Upload your file
3. Enter the date you wish to modify and click on « **Edit fields** »

1 GETPARC.ACTLINES.IDTYPE

Identifier type

2 SELECT A WORKING FILE

Drop your file here, or click to add

3 CONFIGURE THE VALUES OF FREE FIELDS
