

Changes can be made from:

- The menu bar, by selecting « GetFleet »
→ Lines management

Step 1: Search

1. Search for the line using the MSISDN or ICCID then click on the « Search » button
2. Select the line you wish to modify by clicking on its number, then click on « See the line detail »

Step 2: Modification

- In this new window, on the left, click on « Line services »
- The services and APNs will appear. Make your changes and click on « Modify the services » to confirm
- A message will appear in the top right-hand corner of the screen to let you know that the operation has been completed successfully.
