

Activations with an order number on GetWay

Objenious

GetParc - Line management

Lines management

Monitoring of management acts

Activations can be made from:

The menu bar, by selecting « GetFleet »
→ Lines management

In the carousel « Choose a management act », select « Preactivate / Activate lines »

Step 1: Search

- In the filters on the left of your screen, filter by « Order ID » or « Order reference » and click on the « Apply a filter » button
- 2. Select a « billing account » if necessary
 - If you have more than one billing account, select the desired billing account from the dropdown menu and click « Apply a filter ».
- 3. Select the lines to be activated (all lines are selected by default)

Step 2: Offer

- Toggle Activation from Off to On
- Select the offer on which the lines will be activated
- Modify services and APN (Optional)

Step 3: Confirmation

- A new window will appear asking you to save your request.
- A message will appear to let you know that the operation has been completed successfully.
