

Activations can be made from:

- The menu bar, by selecting « GetFleet »
→ Lines management
- In the carousel « Choose a management act », select « Preactivate / Activate lines »
- Click on the « mass action » button

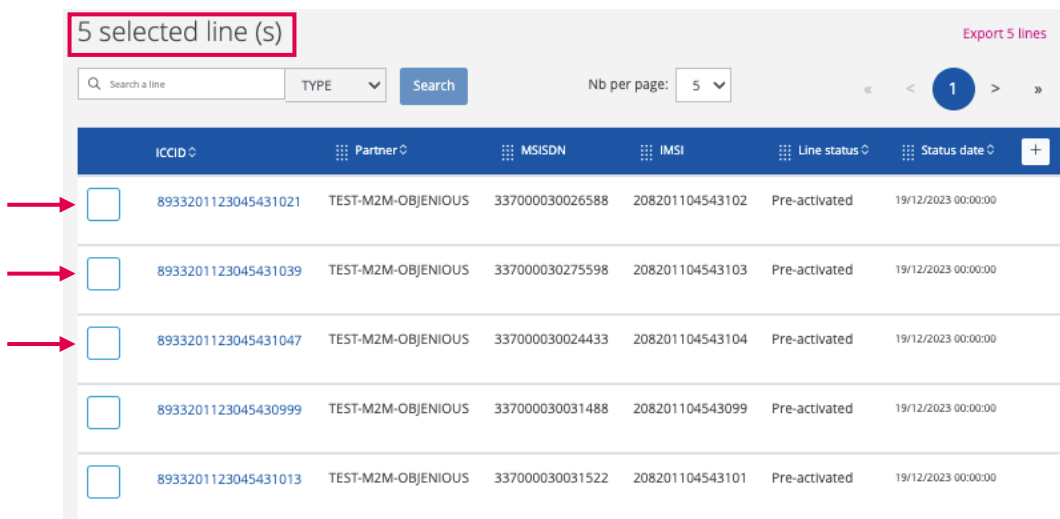

Step 1: Search

- In the filters on the left of your screen,
« filter from a file », select the type of identifier
and click on the « Apply a filter » button
➤ *Choose a CSV or Excel file.*
- Select a billing account if necessary
➤ *If you have more than one billing account,
select the billing account you require from
the drop-down menu and click « Apply a
filter ».*

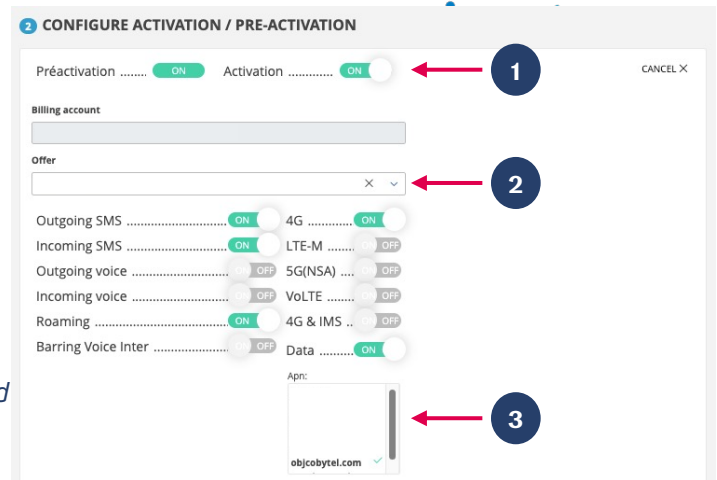

- Select the lines you wish to activate (all lines are selected by default)

Step 2: Offer

1. Toggle « Activation » from Off to On
2. Select the offer on which the lines will be activated
3. Modify services and APN (optional)
 - *Don't forget to specify the date on which the cards should be activated and click on the Apply button (default: same-day activation).*

The screenshot shows the 'CONFIGURE ACTIVATION / PRE-ACTIVATION' window. It includes a 'Préactivation' section with 'ON' buttons for 'Préactivation' and 'Activation'. Below this is a 'Billing account' field and an 'Offer' dropdown menu. A list of services with toggle switches is shown, including Outgoing SMS, Incoming SMS, Outgoing voice, Incoming voice, Roaming, Barring Voice Inter, 4G, LTE-M, 5G(NSA), VoLTE, 4G & IMS, and Data. At the bottom, there is an 'Apn:' field with a dropdown menu showing 'objcobytel.com'. Red arrows and numbers 1, 2, and 3 point to the 'Activation' toggle, the 'Offer' dropdown, and the 'Apn:' dropdown respectively.

Step 3: Confirmation

- A new window will appear asking you to save your request
- A message will appear to let you know that the operation has been completed successfully.
